Dear Mr. & Ms. Smith:

This letter is to inform you that the scheduled date for our Remedial Investigation to the above closed landfill is in **April 5 ~ 7, 2016**. The visiting will involve our contractor, **URS Corporation of North Carolina**, that has been hired by the State. **You do not have to be present when we are collecting the water sample from your well.** However, we will need your assistance to have an access to the well. Thank you in advance for your assistance.

Following tests will be conducted to the water sample collected from your well: volatile organic compounds by SW-846 method 8260, 1,4-dioxane by Method 8260SIM, semi-volatile organic compounds by SW-846 method 8270, 14 metals by SW-846 method 6020, mercury by method 7471, ammonia by SM 4500, and nitrate and sulfate by EPA Method 300. Once the study is done, we'll send you the testing results along with explanations. Please contact me at (919) 707-8347 or by email at zi-qiang.chen@ncdenr.gov if you have any question.

Sincerely,

Ziqiang Chen, PhD, Environmental Engineer II
